SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Applicant encloses herewith two additional references for the Examiner's consideration. These references were cited in a communication from the German patent office in a corresponding German patent application. The date of communication was less than three months before the filing of this IDS.

After diligent searching, Applicant is unable to locate an English language version of DE 3832450 A1. However, Applicant notes that this German application claims priority from a U.S. application identified as 110245 filed on October 19, 1987. To Applicant's knowledge, this application has not matured into a U.S. patent.
